INTRODUCTION

The Alberta Vital Statistics Annual Review is a summary of all events registered prior to March 1990, which occurred in Alberta during the 1989 calendar year.

The statistics presented in this Annual Review are compiled from the events registered in the Vital Statistics Information Terminal System. The Annual Review is produced primarily for the purpose of providing ready reference to some of the more frequently used vital statistics for Alberta. For the first time, the 1989 Annual Review contains detailed Still Birth information. These new tables will now appear in all future Annual Reviews.

I wish to thank Vital Statistics' staff, departmental personnel, and others in the health field who have participated in compiling this Review.
